Summary

I come from a non-IT background with 3 years of experience in the gaming industry, and I'm now transitioning into web development to pursue better personal and financial growth. Currently learning the MERN stack and building hands-on projects to strengthen my skills. I'm passionate about creating meaningful web applications and excited to start my career as a full-stack developer.

Skills

- HTML, CSS, JavaScript, React
- Node.js and Express.js
- MySQL, MongoDB
- Hands-on experience in game design and functional testing during my time in the gaming industry

Front-End Projects

Smart Expense Manager

- Source Code : <https://github.com/sundaraselvam/smart-expense-tracker>
- Deployed Link : <https://smarterexpensetracker.netlify.app/>
- Description : Created a minimal expense and income manager to provide the data about income and expenses of the user with Graphs and charts

Ecommerce Site : Flash Cart

- Source Code : <https://github.com/sundaraselvam/product-cart-router>
- Deployed Link : <https://flashcart-router.netlify.app/>
- Description : Created an experimental site to manage products, carts and to calculate the payments to be made.

Education

National Engineering College, BE in Computer Science June 2018 – April 2021

- **Courses:** MERN-Stack development course in GUVI(2025)
- **Topics Learned:** HTML, CSS, JavaScript, React, Node JS, Express Js and MongoDB

Experience

Video Game Tester, Sun Technologies Integrators pvt Ltd – Bengaluru, Karnataka Dec 2021 – Dec 2022

Tested core gameplay features across platforms, logging bugs and reports. Collaborated with QA teams, gaining strong QA and UX analysis skills.

Game Functionality Tester, Rockstar Games India – Bengaluru, Karnataka Dec 2022 – Dec 2023

Ensured functionality and stability on large-scale Rockstar projects through extensive playthroughs and regression testing. Sharpened attention to detail and documentation skills in a fast-paced environment.

Semiconductor Product Validation, UST Global(Contract with Intel) – Bengaluru, Karnataka Jan 2024 – Mar 2025

Validated Intel chipset functionality with a focus on power, performance, and thermals. Identified hardware issues and built strong analytical and troubleshooting skills in a technical environment.

Additional Information

Languages Known: Tamil, English, Hindi, Kannada.

Interests: Music Production, Video Games, Writing, Sketching.

Technical Learning: Java, C++ , Unreal Engine

My works: Worked on GTA V online DLCs and on Red Dead Redemption Online :
